DETAILED ACTION

Allowable Subject Matter

1. Claims 1-19 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combinations of the limitations as set forth in the claim: modulating means comprise a switch located between the antenna and the resistive load, and specifically comprising the limitation of controlling means periodically opening and closing of the switch at a preset switching frequency.

Regarding claims 2-19 are allowable for the reason given in the claim because of their dependency status from the claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
